Enabling interoperability in global payment acceptance.

This training course offers participants an overview of the global nexo ecosystem, insights into the different solutions and specifications available, and how to optimize deployment projects.

Objectives

- Gain insight and be able to navigate the nexo standards ecosystem.
- Identify and utilize different nexo standards protocols and specifications effectively.
- Understand how best to optimize time to market and achieve global interoperability.

Key topics

- nexo standards full range of protocols and specifications.
- The nexo value proposition for each stakeholder.
- Benefits and best practice in migrating to nexo standards.

Audience

- All payment acceptance stakeholders can benefit from this training, including banks, PSPs, vendors, merchants, processors and payment schemes.

Prerequisites

Basic knowledge of the card payment ecosystem, and standards. Completion of ISO 20022 training would be an advantage.

Price
