

FIDO Document Authenticity Verification

Evaluate and certify your Identity Document Validation Technology.

Demonstrate the trustworthiness of the IDVT product with a trusted partner.

Verify the performance (Document False Accept Rate (DFAR), Document False Reject Rate (DFRR), Document Failure-to-Acquire Rate (DFTA), Transaction Time (TT)) of the products verifying the Authenticity of government or state-issued driver's licenses, identification cards, ePassports, etc., before deploying in the field.

How it works

- Define the testing scope based on the FIDO Document Authenticity Verification Certification Program Requirements and customer product specificities.
- Book a test session.
- Acquire test subjects and test sets.
- Provide the Target of Evaluation (TOE).
- Testing to measure the performance levels of the TOE.
- Deliver test reports.

Fime can help you at any stage of your project lifecycle.

FIDO Document Authenticity Verification Certification Program

Key benefits of Fime labs

- Comprehensive evaluations for Tier 3, Tier 4 and Tier 5 documents using genuine (Physical) and inauthentic (Digital) documents.
- Expertise in simulating levels of document fraud attacks against different threats using document fraud instruments database the FIDO-accredited laboratories.
- Automated eMRTD Document System Inspection System test suites for FIDO Tier 5 document evaluation for ePassport readers using NFC technology.
- Customizable testing strategy or benchmark evaluation.
- Trusted ISO/IEC 17025 testing laboratories.
- Globally recognized by Payment and Digital Identity authorities for conformity testing.
- Provider of Digital Identity Test Suites based on ISO/IEC 18013-5/7 standards.

Standards

- FIDO Document Authenticity (DocAuth) Requirements.

What we offer

- **Consulting, training, workshops**

Understand the Identity Verification ecosystem, the properties of different document sophistication, classification of threats, document fraud attack techniques and instruments and how they are tested and the key considerations to create and launch successful solutions.

- **Testing services**

To ensure the quality of solutions, our testing verifies the performance levels of the TOE.

- **Test strategy customization**

Our laboratory experts collaborate with you to customize every testing strategy with a test plan that meets your business and market needs, and builds trust for your innovation.

- **Benchmark service**

Enables you to evaluate a range of potential solutions or providers, defines indicators to check, and selects the solution or technology.

Why Fime?

- **Trusted testing partner**

Our global ISO / IEC 17025 accredited laboratories have offered leading payment testing services for 20+ years.

- **Engaged in standardization**

Our experts from Consult Hyperion participate in and contribute to major Digital Identity standardization initiatives, including FIDO Alliance and ISO Working groups

- **Continuous evolving methodology**

We innovate testing with AI and machine learning, and work to shape the future of evaluation.

Making innovation possible.

Making the world work.
