

Consulting

Realize the power of your payment operations with our specialized consulting services, offering a 360-degree perspective on your unique needs and challenges.

In today's rapidly evolving payment industry, navigating regulatory requirements, new technologies, and customer expectations is challenging.

Our team of expert consultants deliver value to our clients, providing deep subject matter expertise in payments technology, regulatory compliance, customer needs and business optimization. We provide you with the analysis and advice you need to deliver to your customers.

With a focus on innovation, efficiency, and customer satisfaction, our consulting services empower you to thrive in today's dynamic payment environment.

WHY Consult Hyperion?

Our expertise.

We help our clients across the payments ecosystem, be they international or domestic card schemes, instant payment networks, Central Banks, Issuers, Acquirers, PSPs established or startup to understand their specific needs, we build unique solutions, tailored to our clients to drive their business forward.

Achievement.

Our consulting approach is based on collaboration, innovation, and experience. We work with clients to understand their goals and challenges, using proven methods and expert insight to deliver lasting, high-value solutions.

We deliver.

- Strategic analysis: we uncover opportunities and define strategies to enable our clients to succeed.
- Regulation: we help our clients navigate evolving payment regulations like PCI, PSD2, GDPR, and global and local scheme rules.
- Technology: as experts, we enhance solutions from CBDCs to cards, wallets, Open Banking, and more.
